Please give your overall assessment of following aspects of college Infrastructure (prior to 2006)

[Copy](#)

Please give your overall assessment of following aspects of college Infrastructure (2006 onwards)

[Copy](#)

Your valuable suggestions for further development of this College

77 responses

NA

The resources can be utilized in a more efficient manner by increasing the batch strength of BMS course.

There is need to change faculty, as some don't even know the basics of subject they are teaching and teach for the sake of completing syllabus. Every department should release feedback form after every month or semester, regarding quality of teaching, whether students are having issue with the faculty and take these matters seriously rather than saying we can't change teacher's.

College need to focus on sports facilities.

To encourage more practical learning and field visits.

Need to focus more on practical study instead of Theoretical

Take some initiative for students welfare with Alumni

Can include more sports activities and field visits

Research ability should be enhanced in our college.

College should focus more on personality development rather than attendance and written assignments

I feel the college needs to stepup its CRC ie Corporate Resource Centre, which would aid to the placement process for graduates.

None

The college is already well equipped

The University is well equipped.

1. Work on student career development - upskilling with relevant industry knowledge, internships, seminars, placements. 2. Professors need to take active role in mentoring students for the industry.

Needs more Practical training for students / interactions with the professionals in form of interactive sessions instead of workshops

There needs to be a stronger focus on providing opportunities for students to develop holistically. Greater autonomy to committees and student societies, greater budgets to allow for more exposure.

I think classroom need to upgraded and make it more digitally connected.

Boys' Hostel

1. Infrastructure changes can be incorporated (includes canteen, labs and classroom); 2. Faculty evaluation and feedback to improve the teaching experience; 3. The admin department

can be more helpful and efficient in working; 4. More oppurtunities in the forms of workshops, seminars, conferences and even activities like cultural activities and competitions.

This form needs improvement, it is saying that fill "Hostel (Girls) If Applicable", and yet not allowing to submit form without filling it :) Also there should be professional coaching sessions for sports also.

Look after games & sports...

There must be help desk initiative along with teacher by student to create new space for making students aware

All good

Involve more students or give more imprtance to active participation of students in college development decisions

Library and other facilities need to be provided to certificate/diploma students

Improve classroom and canteen

Give more importance and support to student cells

One to one interactions

More activity areas

Internet and wifi facilities should also be provided in the whole college it is available through all the college

Not Applicable

supporting cultural societies

I think library and lab facilities can be improved

-

GOOD

More extracurricular activities please,

Kindly Improve your placement cell and placement opportunities for students. Also, kindly improve the grievance redressal for the college.

nil

An independent Alumni entity/governed by faculties, supervised by higher authorities so that the legacy of the college as a brand and getting further intangible benefits like improvement in the placements, exposure to field trips, exposure to industry, beyond curriculum exercises can help the developments on growth towards better learning and eventually better industrial deployabilities

Should encourage more of curricular activities too

Women safety cell can be formed.

Make Industry training mandatory, More involved placement cell, Adhoc faculty needs to be focussed & better, Internships, Coding Hackathons

Focus morr on personal development and growth of students, not just studies

Placement should be kept wider in terms of not limiting to few places but overall India , Fintechs are coming up these days , Given chance take into consideration for growth of student, be it fintech/startups

Good as it is

Focus on having more cultural events

College needs more visibility. Leveraging Social media to create awareness will help

Should focus more on sports

Please respond to alumni queries . i have multiple mails, never received a response.

Add more funds in societies

Conducting more workshops which have practical application in the industry.

More courses can be added

College should work on the issues of students

Nothing much, but all the best for all future endeavours

Everything is very well managed

The students must be given more freedom in the college to pursue their goals as an individual as well as society. Sports funds and kits must be property utilised and equiement must be provided to students for the purpose pf training. Gym should be opened regualry and throughout the day. Steps must be taken to make the student union more stronger and the college administration must be open and willing to listen and address the issues of students which have been pending since a long time.

The college could have more of seminars and interactive sessions

The assements related to projects and assignments can be done in a more detailed way. And the practicles should be conducted in a more serious way so that students can get involved more seriously.

1. Connect more with ex-students who can guide wrt jobs/internships/higher studies' guidance. 2. Guest lectures from ex-students on selected topics

Library management can be improved

I would recommend more practical knowledge to the subjects, especially in the field of commerce.

No

Develop a room for students activity corners type

Teaching the subject with animated videos or related and focusing on applications will help the students to grasp the Concept.

Internet facility and e-resources are the two areas of improvement

Must improve the exposure for departmental fest and involvement of students in it. Do seminar more often and Invite various guests and professionals of all fields as it will help students.

This college is a nice place to study, staff is also very supportive here.

Degree should be awarded to the students in Convocation physically.

Focus more on improving the classroom infrastructure

Library and classrooms should be improved. More interactive sessions and events should be held

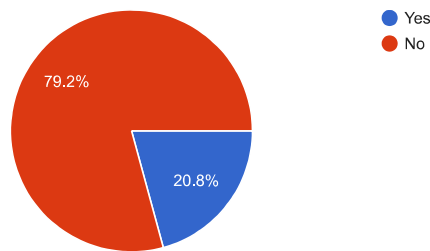

Operational research

Having better interaction with students

Haven't been to college since I graduated in 2004.

NA

-

.

Have regular meetings, conferences, etc. Incorporate alumni with the present students and make them feel connected.

Alumni meet where all can give suggestions.

Some point of contact, information about College initiative, upcoming initiative in which alumni can help etc.

Regular Alumni meets

Every year held meeting with aluminies. Invite them on important occasion of the college.

Pep talks from alumini to students

Forming a social media group or so!

Can focus on research and placement.

Organising more frequent alumni meet

Reach out to alumni for career talks and webinars

We can have like montly meetings regularly with a specific dates fixed so that its easy for Alumni to participate and can keep their slots free for that meet .

There can be many efforts towards connecting with alumni, for instance, conducting batch meets for different years frequently

I think alumni meet and conduct webinar and seminar on how college students can make career in corporate or in their respective job profile.

Not Applicable

Regular get together

Everything is ok

By organising various activities during the session at least one

Canteen should be improved

Please do organise a alumini meet so that we all can meet each other.

Alumni Meets

Nothing
Alumni meets should be kept.
Alumni Meets
Regular session
More communication with current students in this matter
It is an good effort
Not Applicable
organise get together parties
I am satisfied with the efforts by the college
N
Conduct an annual meet for alumni
Try to provide an application just for alumni
Organise an Alumini Meet and Honour them with a Memento as it will create a belongingness to the college and it will also create interaction of new and old students which can help the new students learn from the experienced people.
early meet
Plain and simple : E-mail Group, Personalised email, alumni directory e-copy/print version, call up alumni for one on one interaction by decision makers of the college, so that individual alumni can contribute and give suggestions on how to permanently develop the same
Alumni meet
Organization of alumani program.
Alumni connects, guest speaker series, Involving alumni in mentoring current student batches
Doing great , The faculty is Good
Annual alumni meet
Conduct alumini meets
Publishing a calendar, improving frequency of connects and communication will help
Contact them by call
Keep in touch and Do respond to alumni queries.
Add funds to society
More Alumni meets/connects

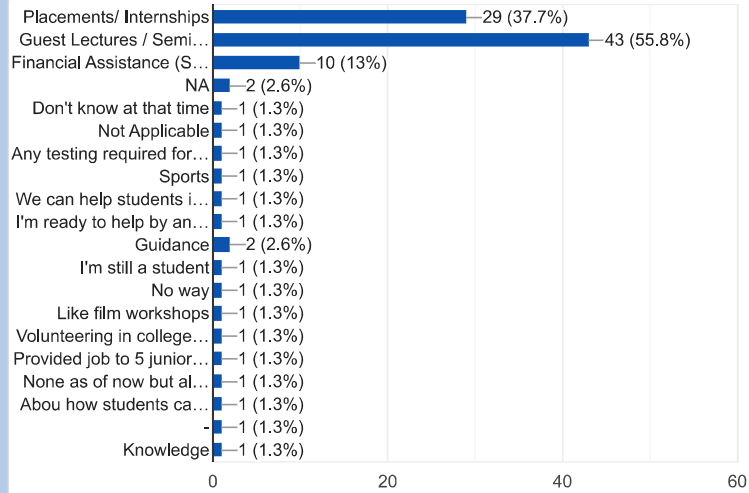

None. Its perfect
College is doing very well
Alum connect once in 2-3 years.
Create or provide localized groups or point of contacts as per metro cities. Or arrange half yearly zoom call etc.
College should plan a get together of Alumni
There should be atleast one alumni meet every year, making the juniors and college students interact with the alumnies so as to get them their insights and motivation.
Alumni meets
Connect more on social media.
We can start with Better planned, regular, time-zone sensitive meetings, with inclusive options for alumni outside of Delhi and India; Many of our Alumni are spread all around the world. Perhaps a regular online newsletter to be sent to current and previous students, where alumni can contribute too.
Yearly alumni meet
Apart from the once feedback, and that too after 2 years, should take feedback immediately after 5-6 months
Give theme farewell of students whos not able to get during pandemic
By providing opportunities in the college or having a interaction via any mode.
College can organise an annual Alumni Meet every year
Have alumni meet regularly so that students can gain knowledge from them.
They can invite alumnis in various college events.
Regular connects and Alumni meets will be better
Should arrange meets every year
Arrange more meetings
Not aware of Alumni meet-ups or Industry exchanges

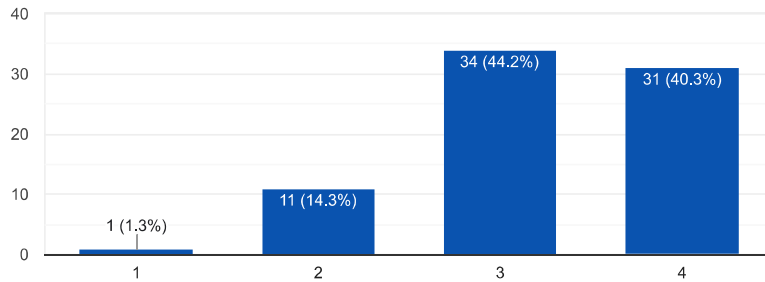

In what way you can contribute in the development of the College? (You can tick more than 1 option) Copy
