

KESHAV MAHAVIDYALAYA
University of Delhi

BEST PRACTICES 2025-26

BEST PRACTICE 1
Facilitating Women Empowerment

Women empowerment is a necessary imperative for sustainable development, economic growth, and social justice. Empowering women means enabling them to participate fully in all aspects of life: economic, political, educational, and personal. Facilitating women empowerment requires a multifaceted approach that addresses structural barriers, cultural norms, and change in mindset. Women empowerment is essential for building a just, inclusive, and progressive society. Keshav Mahavidyalaya contributes to women development through various initiatives. The Women and Development Cell (WDC) of the college organises various events to foster a safe and inclusive environment. College has an Internal Committee for prevention and prohibition of sexual harassment. Through various Cells and Committees, the college works towards empowering girl students. Women empowerment is not just about uplifting women, it is about uplifting humanity. When a woman rises, families prosper, economy flourishes and society becomes more just.

BEST PRACTICE 2

Developing Entrepreneurial Skills in students

Developing entrepreneurial skills in students is a powerful way to prepare them for a dynamic future—whether they start their own ventures or become innovative leaders within organizations. College is taking steps to empower students to learn to take initiative and ownership of ideas. Entrepreneurial skills help students think outside the box and help cultivate a mindset that empowers them to innovate, lead and adapt in a dynamic environment. As per National Education Policy (NEP) 4th year of UGCF 2022, Entrepreneurship Track nurtures innovation, resilience and employability while preparing students for advanced studies, start-up ecosystems, incubation, opportunities and meaningful social contribution. College aims to provide the necessary environment and organises necessary workshops/seminars and awareness sessions for helping students develop entrepreneurial skills.
