Specify the reason for Offline or Online teaching mode preference.
Face to face interaction
I have to travel 2.5 hr to attend lecture
Provides better guidance and attentiveness
More comfortable and saves time and money
Because, there are less distractions offline and therefore longer attention span.
Offline better way to interact teacher and slove query fast.
Because of student-teacher connectivity
In online mode students are more satisfied as it saves students time and also is more convenient
Offline,because of face to face interaction with teachers and for social development
In this mode we can ask any doubt to teacher very freely. And teacher explain full.
Personal interaction
some teacher teach us very well but after having a full offline classes , some teachers use to teach us through the ppt or in online mode , which i don't and not able to find things usful.
I have to travel 20-30 km daily to attent offline and when i reach college i get messages that class is cancelle
Interaction between students and teachers
Better understanding
In an offline mode we are able to grasp the knowledge properly and we are less distracted sitting in a classroom.
Interaction with peer students and teachers.
Since most of the classes and lectures are held regularly and more than 90% syllabus is completed on time
More flexibility
Because in online network issue is a big problem
Connectivity
Offline helps in better interaction between the students and professors
Saves time in traveling to college and also in online and offline mode the quality of education is the same.

We could focus better in offline mode.
Better communication and instant doubt solving
More interactive
Interaction. Better clarity of concept
Online is better atleast we can concentrate on what is very important to us.We are forced to attend the classes for attendance Purpose only.
Offline mode caters to holistic development in terms of teacher interaction, learning modalities, social skills and psychological involvement.
Offline teaching can never replace online teaching. While teachers put great level efforts in both ways, it is much better for the eyes. Long years of screen time was very painful and distracting too because it was easier to ignore.
In offline teaching mode, students have direct interaction with their teachers, which allows for immediate clarification of doubts and questions. This is not possible in online teaching, where there is a delay in communication due to the digital medium. Offline teaching mode provides opportunities for social interaction and networking, which is important for a student's overall development. This includes building friendships, participating in extracurricular activities, and developing teamwork skills.
Better communication , better progress
Easily accessible
Hardware available
Offline teaching is the best for all the students than the online mode.
Offline teaching is more engaging
No travelling
Engagement with teacher
Commuting
More fruitful discussions
Better interaction with teacher.
Interactive, get to learn more, better environment overall
Convenient, time saving
The thing is interaction.
Because we are enjoying it and share realtime learning in physical form with others students.
In offline mode, The teacher and student interaction is far better than online mode of teahing. Also time is not getting wasted in offline mode

Understanding is better in offline mode
Blackboards not visible Also teacher are very irregular
The worst college . Faculty is extremely below average .
Interaction is necessary. Teachers can usually tell if the student has get the concept or not just by looking at their face expressions.
Direct interaction with the teachers
Classroom learning and enriching peer group experience
Online
Amount of interaction between students-student and student - teachers is more in offline mode
no fan/ac properly working on college and water availability very poor
Offline we can ask doubts , in online we can we have a specific time for ask doubt ,
For me it is more comfortable.
Face to face interaction with teachers, competition among students , teacher pay attention on each student.
Because we are develope academic as well as personality enhance
Offline interaction helps in better clarity of the topic
Because we can understand easily in offline as well as we can ask physical any doubts without hesitation
Online teaching makes us lose focus and not 🖉 tention in class
Better understanding.
No
Extremly uncomfortable to sit in summer .hot temperature and same in winter due to poor insulation
Better communication
Offline classes are more interactive and beneficial than online classes.
Interaction with teachers
Infrastructure
Classrooms

Better classrooms
Need to improve management
Washrooms need to be repaired and cleaned regularly. Also, there are no sanitary pads in girls washroom. Drinking water should be available at a distance from washrooms. We have seen dogs licking the used utensils of the canteen. Also, i have received unclean spoons and forks from the canteen many times. These should be taken care of asap.
Overall it's a good institute. Of course there are things that needs to be addressed but those are not mandatory to change immediately.
<ol> <li>College time should be 10am to 3pm</li> <li>most of the teachers only PhD holder but they low knowledge about their subjects.</li> <li>update lab instruments.</li> <li>improve drink water facility</li> <li>admin office very slow &amp; late response any y</li> <li>need ncc unit in keshav mahavidyalay</li> <li>need college gym with all equipment</li> <li>improve sport ground</li> </ol>
Improve lab instruments and canteen food
College should take students to trip
A councellor for students,sports society and a class or seminar for interaction in college with students
Need improvement
<ul> <li>&gt;&gt; Washrooms are an absolute horror show i.e. They need immediate revamping.</li> <li>&gt;&gt; More initiative needs to be taken towards sports i.e. Facilities need to be improved, Equipment must be available and most importantly, playing fields and courts need proper maintenance.</li> <li>-&gt; Some tools and apparatuses in the physics lab are old and worn out and need to be replaced, it would be nice to use equipment that it isn't broken</li> <li>-&gt; Classrooms aren't clean at all, for e.g. My classroom has an entire row of desks tainted by bird shit rendering them unusable.</li> </ul>

Please make the canteen more clean and lawn more likeable Fix the projectors in classroom Provide wifi password

Majority of lab equipment doesn't work. No grievance redressal is given attention to, students have to reach ABVP to conduct protests to have authority even listen to us let alone resolving our issues which they are supposed to do. No fund for societies is allotted neither are they given proper support while participating in external competitions.

Change the canteen staff they gave costly food.

College need more funds to grow as labs and college grounds are in ruins and Auditorium should remain open to students at all the times so that different societies can reherse or have sessions there.

Attendance factor should be removed it's just act as a burden only nothing is working over that

the lab equipment is not working well , laptops in the is outdated and today also we are using window 7th the laptops of the lab , very less equipment in the labs and the equipment which are in labs are not working properly.

Nice college, if you eager to study But campas is very small.

There is nothing in keshav mahavidyalya need complete focus

Please get the College washrooms cleaned and projectors working in each and every class.

First of all one more sports teacher should be there! Secondly administrators are always on strike , sports teacher is always absent and take attendance on WhatsApp, sports teacher doesn't teach theory and practical. He is just doing formalities . Students should be listened if they are not satisfied with any teacher . There sho

Try to communicate with students more frequently

Fests can be organised

Overall college environment is good. The most urgent issue which needs to be solved is the lack of good quality drinking water. The water is highly salty and smells. It literally causes problems in the throat when drinking water from water filters installed in each floor. It would be better to install just one good water filter in each floor which provides good water instead of having more in each floor with worst water quality.

Maybe we can have a hybrid of online and offline for lectures and classes , though tests should be offline. Apart from that there should be more opportunities to practice sports. Lastly canteen food should be highly improved.

Improve infrastructure

Give opportunity in sports

more extracurricular activities should take place, events fests should be conducted more often, furnitures should be fixed, canteen ground should be cleaned regularly, time table should be made fixed, we are having 2 or

sometimes 3 hour break between two classes. thankyou
To improve sports opportunities
Shall provide opportunities, support and promotion of sports in your college
The college is very unhygienic and dirty. Lacks even soaps in the washrooms.
More extracurricular activities specially in sports should be held.
Library staff is very rude and does not want to do work, always irritated and belittling others. They should be thrown out of the college. Recently I had a knee ligament injury, and rather than clearing my dues, they made me stand for 40 minutes. They always want easy money and talk rudely to the main librarian ma'am
No suggestions as such, there are various factors where our college can improve
Overall, there is no incentive to come to college at all. I don't think there will be more than 10 students in my section who would've scored atleast a single mark for attendance. The faculty is good but sometimes fail to cooperate. For eg, telling us to get clearance forms 4-5 days before exam is not fair and many students have to travel long hours just for one single sign. The canteen's state is also very poor. It is not well lit at all and it feels unhygienic to have food in canteen. The state of Men's washroom is very bad. Often you won't even find soap to wash your hands. The urinals are often broken and smells very often. The classrooms are in a average state. Most of the LT's have projectors but are usually not working.
More activities that indulge each and every student with compulsion and lead activities which build confidence
Boys Washrooms need to be clean and they maintained at all some times there is no water and some taps are broker too
Our college should have proper soaps in washroom and condition of computers in labs should be improved
No
The System is simply running in the race to complete syllabus and passing in exams.Students are in the wrong path accumulating incorrect practises to move forward. No proper lab facilities and assistance to learn something new.
Teachers -
> While some teachers are exceptionally good, like Dr. Daisy Sharma ma'am who take education extremely seriously and make sure every single child is catered towards, other teachers exhibit a lack of seriousness towards education and in general development of students.
> While some divide the syllabus among students to give class presentations the whole semester and free themselves from putting in any effort, others do not take any classes at all!
> Further, the level of education being imparted is also minimal, specifically when dealing with a few teachers like Miss Pinki, who lack

basic communication and knowledge of the subject they are teaching. Highly disappointing!

--> Further, there is an immense lack of empathy in a few and use such harsh and triggering words that make me question their credentials as a psychology professor. Blaming children for things not in their control is not how any human should react, specially when the teacher has no knowledge of the subject matter themselves and haven't done even a threshold job at providing education to us due to a lack of basic communication skills.

--> There is so much ambiguity around the classes and when they would be held even with a timetable. Classes take place at whims and fancies of teachers costing us a lot of money and resources.

--> There is no transparency in the marking system, no feedback is provided as to why the efforts of a child have not been accounted for.

A stark change is required in the teachers and their attitude towards college.

Canteen should have more variety of food.

Need to improvement in administration work

Our college needs to upgrade technology and use projectors to improve learning experience. My teachers were excellent but the administration in college is the worst. They never send out notices on time, we always came to know about important things from word of mouth and there where no official emails and procedures to know how to do anything. Eg. they sent a WhatsApp message on 8th of May (4 days prior to my college exams) , saying that admit card will be issued only to those who submit the clearance form. Now I went their asking about the admit card 3 times before and they only said "abhi nahi milega (you can't get it right now)". Can they not even guide us???? They could have informed me regarding what a clearance form is and how I'll need it to get my admit card. They are the worst, they are like those typical government officials who always have some nonsense to pull.

I think we have to done much better.

A little more focus college should give in library because library offer some less books of our latest subjects and most of the time there is strike of the library

Canteen and classroom needs repair Labs computers need maintenance Labs projector needs repair Lecture hall needs repair Gate no 3 issues

One of the teacher in my department changes the criteria for getting marks assignment arbitrarily. She doesn't specify on what basis the marks are given by her. Even after complaining there was no redressal. Another teacher completed the first unit of the course in 4 months and then completed the other 3 in just 2-3 weeks

Please correct the spelling of college on the front gate. There is written kashav mahavidhyalya.

Please open gate number 3 of college

Please provide us Wi-Fi because the college have Wi-Fi name keshav students but they don't provide us password.

The water that comes from the water cooler has strange taste.

Should work more on administration and infrastructure.

The library was on strike when students needed it the most that is before exam. The administration doesn't look over to the students needs and talks rudely to the students even if the students are coming for a genuine work. The cleanliness and water supply in the college is not up to the mark. The library is well equipped with books but what is the use if they go on strike before exams.

Promoting students for extra curricular activities. Lack of college societies and negligence by department in students initiative to introduce one. Encouraging more activities in college.

Need to work on a lot of different areas to make it a better learning environment.

 There is fair little in the name of grievance redressal in this college, and some of the decisions made by the administrative staff are downright baffling (eg: keeping the main gate closed for students).
 Internal assessment and practical guidelines need to be made less obtuse. The purpose of assessment is to IMPROVE students' understanding of core concepts, not score them poorly out of spite without explaining how

they could improve.
One of the staff members was consistently rude to me and my classmates, making attending any lectures taken by her an absolute hassle.
I was scared to attend her classes, lest she belittle me or my peers. If this is the caliber of educators this institution feels warranted to hire, there's something fundamentally wrong with its approach education.

Overall, the quality of professors varies widely within the department, with some heinous exceptions overshadowing the ent professors who clearly serve as the backbone of the department.

Hygiene and cleanliness of all rooms has to be substantially increased. Assignment and internal assessment techniques are below satisfactory. They only encourage redundant handwritten work with no emphasis on practical learning.

Contract for canteen should be given to someone else. It was amazing last semester with Pushpa aunty but now the prices are too high, the quality of food is bad, most of it is inedible and the staff especially the owner is very rude

## NOPE

Promotion of sports activities and participation in tournaments.

Collage should provide more oppertunity

####\*Keshav mahavidyalaya college did not provide laptop to students they said that al laptop is waste and bad, not working till now over 1 years other du college with low rank provide laptop and our college also not provide WiFi to students only teachers have permission.\* ####Teacher were always in fast to complete syllabus while they have sufficient time. Admin office is too bad. Labs are not available for students. Staff are always on strike. Suggestions:- Attendence should not be compulsory because students did not go to another activity, fest, and teacher's teaching did not understand by most of the students.

College should encourage students to take part in extra-curricular activities and should provide opportunities for different sports.

administrative office and library staff can be more cooperative and helpful. very technical papers should only be given to teachers who have specialized knowledge or experience in the field of paper and specific faculty could be trained for being more sensitive to students

The strikes are more frequent which inhibits admin work. Admin works should be improved. The greenery inside the college should be maintained again. The computers labs are most of the time occupied.

The teachers of commerce department are too arrogant and in-corporative they must listen to students about a particular topic not just putting their obligation on student

Washrooms should be more clean

There's a need for overall Strategizing and working up for college

Library staff is very rude and does not do work properly

Please get new psychology faculty .

As per my course internet connection is must for us and we don't have the excess of that, also there are many students who can't afford laptop so college administration should provide laptops for there help. One must be physically fit to stay mentally strong so the college gym but extent it's time from 8-10 to 8-12. It's because the time slots of the gym not suitable for everyone because students who came from far away places have a lot of strugle.

Washrooms need maintainence and college should have more sports acitivities.

Workshops should be held in more numbers and library books r not in sufficient

Some Infrastructure renovation can be done and a badminton court can be built

There are some shortage of teachers and systems in labs otherwise everything is good, I recommend students to take admission in this college.

The only thing where the college could improve is in terms of hygiene levels in the canteen and the college premises

College muat focus on soft skills and eca for overall growth

No suggestions

No liquid soap in washrooms, projectors are non functional, admin office doesn't listen, library is closed mostly

Please clean water coller
 Most of the time non teaching/cleark staff on strike.

3) most of the equipment are not working properly or only for show peace in labs. 4) sports room not providing valley ball/ equipment during other senior students having exam while our exam they provide Ball no suggestions There is a need for lot of improvement. Nothing The cleanliness of washrooms and quality of food of in the canteen should be taken care of asap. Also there should be a sanitary pads machine in a working state in every ladies washroom. Less number of extra curricular activities, less availability of books in library, classes and practicals schedule are lengthy , bad canteen management nil Jai hind Hygiene and supply of water in washrooms should be timely maintained Yes I have many suggestions for the college the issues so first of fall lab issue and class issues • A dire need for dedicated teachers who are passionate not just about the subject but also about teaching and student interaction. • Library needs a revamp in its organization system. It's not just about availaibility of books but also the accessibility, which is decreased due to lack of book management system. • Admin department is extremely rude in conf<sup>17</sup> asolution. Polite and humane responses would be appreciated. Washroom need to be clean Water tanks should be clean regularly Lights and supply of water should be proper in washrooms Classroom needs to be clean Availability of dusters in all class Canteen should be clean regularly Canteen are full of flies Canteen lawn should be clear for dine as sometimes canteen is full Grow more and more plants for fresh air Please be sensitive towards the needs and wants of the students. 14 more responses are hidden This content is neither created nor endorsed by Google. <u>Report Abuse</u> - <u>Terms of Service</u> -<u>Privacy Policy</u> **Google** Forms
