1. Offline classes are far better than online classes.

Reduce No. Off assignments.

1. Online learning is not at all effective for most of the students so please open college in physical mode properly.

2. Most of the subject Teachers are changing in every semester so please give us *options* to either continue previous semester's teacher or start new semester with a new teacher.

3. If college will continue with online learning in next semester then please give us both of the options to either come to college or study in online mode.

there are no suggestions on my end as all the facilities, information, education system provided by my college is best and perfect

I think right now in this current situation you are doing the best you can do.

1. Offline study (open college first)

2. Online study is very boring and most of student don't take class this is not teacher fault our college
