Discipline in the College

Grievance Redressal in the College

Your Suggestions

125 responses

-

None

.

No

Nothing

Pathetic college

N/A

Everything is good

administrative office and library staff can be more cooperative and helpful. very technical papers should only be given to teachers who have specialized knowledge or experience in the field of paper and specific faculty could be trained for being more sensitive to students

Library staff is very rude and does not do work properly

Try to communicate with students more frequently

Provide all the facilities required in the college and specially repair all the fans of the class room

no suggestions

First of all one more sports teacher should be there! Secondly administrators are always on strike , sports teacher is always absent and take attendance on WhatsApp, sports teacher doesn't teach theory and practical. He is just doing formalities . Students should be listened if they are not satisfied with any teacher . There should be survey every semester related to teachers!

Improve infrastructure

Need to work on a lot of different areas to make it a better learning environment.

Our college needs to upgrade technology and use projectors to improve learning experience. My teachers were excellent but the administration in college is the worst. They never send out notices on time, we always came to know about important things from word of mouth and there where no official emails and procedures to know how to do anything. Eg. they sent a WhatsApp message on 8th of May (4 days prior to my college exams) , saying that admit card will be issued only to those who submit the clearance form. Now I went their asking about the admit card 3 times before and they only said "abhi nahi milega (you can't get it right now)". Can they not even guide us???? They could have informed me regarding what a clearance form is and how I'll need it to get my admit card. They are the worst, they are like those typical government officials who always have some nonsense to pull.

Washrooms are extremely unhygienic. They are not cleaned most of the time (95% times not cleaned). Door locks are also broken. No soap availability. Must be cleaned and repaired.

Washrooms need to be repaired and cleaned regularly. Also, there are no sanitary pads in girls washroom. Drinking water should be available at a distance from washrooms. We have seen dogs licking the used utensils of the canteen. Also, i have received unclean spoons and forks from the canteen many times. These should be taken care of asap.

Improve lab instruments and canteen food

Need improvement

Nice college, if you eager to study
But campus is very small.

Jai hind

Overall, there is no incentive to come to college at all. I don't think there will be more than 10 students in my section who would've scored atleast a single mark for attendance. The faculty is good but sometimes fail to cooperate. For eg, telling us to get clearance forms 4-5 days before exam is not fair and many students have to travel long hours just for one single sign. The canteen's state is also very poor. It is not well lit at all and it feels unhygienic to have food in canteen. The state of Men's washroom is very bad. Often you won't even find soap to wash your hands. The urinals are often broken and smells very often. The classrooms are in a average state. Most of the LT's have projectors but are usually not working.

Overall it's a good institute. Of course there are things that needs to be addressed but those are not mandatory to change immediately.

#####Keshav mahavidyalaya college did not provide laptop to students they said that al laptop is waste and bad, not working till now over 1 years other du college with low rank provide laptop and our college also not provide WiFi to students only teachers have permission.*
#####Teacher were always in fast to complete syllabus while they have sufficient time. Admin office is too bad. Labs are not available for students. Staff are always on strike. Suggestions:- Attendance should not be compulsory because students did not go to another activity, fest, and teacher's teaching did not understand by most of the students.

Washrooms need maintainence and college should have more sports activities.

Promoting students for extra curricular activities.
Lack of college societies and negligence by department in students initiative to introduce one.
Encouraging more activities in college.

Yes I have many suggestions for the college the issues so first of fall lab issue and class issues

Sports activities should be held more

Library staff is very rude and does not want to do work, always irritated and belittling others. They should be thrown out of the college. Recently I had a knee ligament injury, and rather than clearing my dues, they made me stand for 40 minutes.
They always want easy money and talk rudely to the main librarian ma'am

Need to improve management

Thorough evaluation of the college is required

Contract for canteen should be given to someone else. It was amazing last semester with Pushpa aunty but now the prices are too high, the quality of food is bad, most of it is inedible and the staff especially the owner is very rude

Less number of extra curricular activities, less availability of books in library, classes and practicals schedule are lengthy , bad canteen management

Teachers -

--> While some teachers are exceptionally good, like Dr. Daisy Sharma ma'am who take education extremely seriously and make sure every single child is catered towards, other teachers exhibit a lack of seriousness towards education and in general development of students.

--> While some divide the syllabus among students to give class presentations the whole semester and free themselves from putting in any effort, others do not take any classes at all!

--> Further, the level of education being imparted is also minimal, specifically when dealing with a few teachers like Miss Pinki, who lack basic communication and knowledge of the subject they are teaching. Highly disappointing!

--> Further, there is an immense lack of empathy in a few and use such harsh and triggering words that make me question their credentials as a psychology professor. Blaming children for things not in their control is not how any human should react, specially when the teacher has no knowledge of the subject matter themselves and haven't done even a threshold job at providing education to us due to a lack of basic communication skills.

--> There is so much ambiguity around the classes and when they would be held even with a timetable. Classes take place at whims and fancies of teachers costing us a lot of money and resources.

--> There is no transparency in the marking system, no feedback is provided as to why the efforts of a child have not been accounted for.

A stark change is required in the teachers and their attitude towards college.

More extracurricular activities specially in sports should be held.

Promotion of sports activities and participation in tournaments.

Classroom light and space should be improved. washroom are in very bad condition

Better classrooms

Our college should have proper soaps in washroom and condition of computers in labs should be improved

There is nothing in keshav mahavidyalya need complete focus

Washrooms should be more clean

Hygiene and cleanliness of all rooms has to be substantially increased. Assignment and internal assessment techniques are below satisfactory. They only encourage redundant handwritten work with no emphasis on practical learning.

No suggestions

The teachers of commerce department are too arrogant and in-corporative they must listen to students about a particular topic not just putting their obligation on student

I think ICT lab should have more working computers. It's like there are so many but only for showing it . I think more than 50% of them does not work properly . They automatically shuts down in between and some of them are fully down.

All these are good

Improve extra curricular activities

Change the canteen staff they gave costly food.

Some Infrastructure renovation can be done and a badminton court can be built

College must focus on soft skills and eca for overall growth

The cleanliness of washrooms and quality of food of in the canteen should be taken care of asap. Also there should be a sanitary pads machine in a working state in every ladies washroom.

Please be sensitive towards the needs and wants of the students.

A little more focus college should give in library because library offer some less books of our latest subjects and most of the time there is strike of the library

1. There is fair little in the name of grievance redressal in this college, and some of the decisions made by the administrative staff are downright baffling (eg: keeping the main gate closed for students).
2. Internal assessment and practical guidelines need to be made less obtuse. The purpose of assessment is to IMPROVE students' understanding of core concepts, not score them poorly out of spite without explaining how they could improve.
3. One of the staff members was consistently rude to me and my classmates, making attending any lectures taken by her an absolute hassle. I was scared to attend her classes, lest she belittle me or my peers. If this is the caliber of educators this institution feels warranted to hire, there's something fundamentally wrong with its approach education.

Overall, the quality of professors varies widely within the department, with some heinous exceptions overshadowing the excellent professors who clearly serve as the backbone of the department.

No

- 1) Please clean water cooler
- 2) Most of the time non teaching/cleark staff on strike.
- 3) most of the equipment are not working properly or only for show peace in labs.
- 4) sports room not providing valley ball/ equipment during other senior students having exam while our exam they provide Ball

nil

The System is simply running in the race to complete syllabus and passing in exams. Students are in the wrong path accumulating incorrect practises to move forward. No proper lab facilities and assistance to learn something new.

More activities that indulge each and every student with compulsion and lead activities which build confidence

The strikes are more frequent which inhibits admin work. Admin works should be improved. The greenery inside the college should be maintained again. The computers labs are most of the time occupied.

No suggestions as such, there are various factors where our college can improve

The library was on strike when students needed it the most that is before exam. The administration doesn't look over to the students needs and talks rudely to the students even if the students are coming for a genuine work. The cleanliness and water supply in the college is not up to the mark. The library is well equipped with books but what is the use if they go on strike before exams.

To improve sports opportunities

N/a

- A dire need for dedicated teachers who are passionate not just about the subject but also about teaching and student interaction.
- Library needs a revamp in its organization system. It's not just about availability of books but also the accessibility, which is decreased due to lack of book management system.
- Admin department is extremely rude in conflict resolution. Polite and humane responses would be appreciated.

College should encourage students to take part in extra-curricular activities and should provide opportunities for different sports.

College need more funds to grow as labs and college grounds are in ruins and Auditorium should remain open to students at all the times so that different societies can rehearse or have sessions there.

Boys Washrooms need to be clean and they are not maintained at all some times there is no water and some taps are broken too

The only thing where the college could improve is in terms of hygiene levels in the canteen and the college premises

Please get the College washrooms cleaned and projectors working in each and every class.

Workshops should be held in more numbers and library books r not in sufficient

The water that comes from the water cooler has strange taste.

Please correct the spelling of college on the front gate. There is written kashav mahavidhyalya.

Fests can be organised

Please install ac in lecture halls as it suffocates and fix the librarian who is rude and unhelpful.

Overall college environment is good. The most urgent issue which needs to be solved is the lack of good quality drinking water. The water is highly salty and smells. It literally causes problems in the throat when drinking water from water filters installed in each floor. It would be better to install just one good water filter in each floor which provides good water instead of having more in each floor with worst water quality.

College should take students to trip

Hygiene and supply of water in washrooms should be timely maintained

Please open gate number 3 of college

more extracurricular activities should take place, events fests should be conducted more often, furnitures should be fixed, canteen ground should be cleaned regularly, time table should be made fixed, we are having 2 or sometimes 3 hour break between two classes.
thankyou

Majority of lab equipment doesn't work. No grievance redressal is given attention to, students have to reach ABVP to conduct protests to have authority even listen to us let alone resolving our issues which they are supposed to do. No fund for societies is allotted neither are they given proper support while participating in external competitions.

Should work more on administration and infrastructure.

Canteen should have more variety of food.

Maybe we can have a hybrid of online and offline for lectures and classes , though tests should be offline. Apart from that there should be more opportunities to practice sports. Lastly canteen food should be highly improved.

Collage should provide more oppertunity

Please make the canteen more clean and lawn more likeable
Fix the projectors in classroom
Provide wifi password

No liquid soap in washrooms, projectors are non functional, admin office doesn't listen, library is closed mostly

Attendance factor should be removed it's just act as a burden only nothing is working over that

As per my course internet connection is must for us and we don't have the excess of that, also there are many students who can't afford laptop so college administration should provide laptops for there help.

One must be physically fit to stay mentally strong so the college gym but extent it's time from 8-10 to 8-12. It's because the time slots of the gym not suitable for everyone because students who came from far away places have a lot of struggle.

Thank you 😊

Need to improvement in administration work

Give opportunity in sports

- 1) College time should be 10am to 3pm
- 2)most of the teachers only PhD holder but they low knowledge about their subjects.
- 3) update lab instruments.
- 4) improve drink water facility
- 5) admin office very slow & late response any query.
- 6) need ncc unit in keshav mahavidyalay
- 7) need college gym with all equipment
- 8) improve sport ground

Please provide us Wi-Fi because the college have Wi-Fi name keshav students but they don't provide us password.

There's a need for overall Strategizing and working up for college

A councillor for students,sports society and a class or seminar for interaction in college with students

Shall provide opportunities, support and promotion of sports in your college
